SIXTH FORM PROSPECTUS

A grown-up approach to young people

Choosing where to study for A Levels is a **big decision**.

This is a big stepping stone to the future and an important part of growing up. There is so much to think about. To make the selection process easier, we suggest you concentrate on four big questions:

1. How strong is the academic focus?

Our results speak for themselves. Excellence is our watchword.

2. How much support will I get for university applications, careers options, student finance and the rest?

Your support is tailored to you. We are particularly good at supporting applications to the Russell Group of leading universities, and we run a series of workshops and fairs covering all the important areas of the next stage in your education.

3. What does it feel like here, and will I be treated like an adult?

Our sixth form is the perfect size to maintain a broad range of subjects and still be personal enough for everyone to be known individually. There are plenty of opportunities to take on responsibilities that benefit the whole school.

4. What goes on outside studying (as there's more to life than just results)?

Employers and universities are looking for rounded individuals with experience of the world. Our programme includes international expeditions, volunteering opportunities and the chance to develop new skills outside the classroom.

This prospectus will give you some information in these areas, but there's only one way to understand what we have to offer: come and visit.

It's the best way to experience what Countesthorpe Leysland Community College is all about, and we'd like to meet you.

You won't be disappointed.

Opening eyes...
...and minds

The journey to your future starts here

Joining Countesthorpe Leysland Community College will open the way for the next stage of your education and open your mind to the opportunities ahead of you.

Our sixth form helps create academically successful and independent young adults who are ready for further study or work.

Our experience and guidance will support you whether or not you know where you are going. We do that by working with you to develop your abilities and helping you discover new ones.

Learning for the Future

Developing individuals
prepared for life.

The curriculum

We are proud to offer a wide range of A Levels, including 25 different subjects made up of traditional topics you may have met before and new challenges to stretch and inspire you.

The subjects we offer will give you the best chance to get on to the university course you choose to do – even the most competitive ones.

How do we know? The universities have told us.

For more information on subject choices in the Sixth Form, please see the Countesthorpe Leysland Community College website: www.clcc.college/sixth-form-subject-choices

(Options at A Level are reviewed annually and may be subject to change)

Making the future happen

Our students face a changing world that demands not only academic success, but skills, resilience and creative problem solving. We encourage students to step out of their comfort zones and be responsible leaders in our college community.

The sixth form offers opportunities for students to develop their skills and gain valuable new experiences. From conventional studies to international trips to support struggling communities in Ecuador and South Africa, our students seize chances and create opportunities for their own growth.

The same,
but different

A message for parents and carers

Like you, we want the best for your child. Taking A Levels is a big step for students, and we want to make the move up to sixth form as engaging and fulfilling as possible.

The sixth form is a different experience, but not everything has to change. As we do with students and parents throughout the college, we'll work in partnership with you to help your child reach independence and maturity at the right pace for them.

We have high standards and high expectations, and we will update you regularly on your child's progress and achievements.

Sixth Form should be about learning, growing up and developing skills in a stretching and supportive environment.

You can be confident that your child will have that experience here.

If you are not familiar with the college, or want to come and see what we do, see our website to arrange a visit.

We look forward to meeting you.
